

User's Guide for Parents' Resource Manual for Special Education Services

This guide is given to each family served directly by Peer Parent Mentors. In hard copy, the guide is equipped with section dividers and tabs to facilitate easy use. To compensate for lack of dividers/tabs in the on-line version, this user's guide has been developed to aid in navigating the content of the Manual. This short outline is meant to be a tool to navigate the Resource Manual. We hope you find the information useful.
